

Physical Review Journals

2023-2024 Catalog: At-a-Glance

Published by

PHYSICAL REVIEW LETTERS (PRL)

journals.aps.org/prl

PRL is the world's premier physics letter journal and APS's flagship publication. It has published seminal research by Nobel Prize winners and other distinguished researchers in all fields of physics.

Lead Editor: Hugues Chaté, *CEA-Saclay, France*

PHYSICAL REVIEW X (PRX)

journals.aps.org/prx

PRX publishes a select set of papers from all areas of pure, applied, and interdisciplinary physics that have the potential to influence current and future research.

Lead Editor: Denis Bartolo, *ENS de Lyon, France*

PRX ENERGY

journals.aps.org/prxenergy

PRX Energy is a highly selective, multidisciplinary, fully open access journal that publishes energy research with an emphasis on outstanding and lasting impact.

Lead Editor: David Scanlon, *University College London, United Kingdom*

PRX LIFE

journals.aps.org/prxlife

PRX Life is a highly selective, multidisciplinary, fully open access journal dedicated to publishing outstanding research at all scales of biological organization.

Lead Editor: Margaret Gardel, *University of Chicago, USA*

PRX QUANTUM

journals.aps.org/prxquantum

PRX Quantum is a highly selective, fully open access journal showcasing research in core areas of quantum information science and technology.

Lead Editor: Stephen Bartlett, *University of Sydney, Australia*

REVIEWS OF MODERN PHYSICS (RMP)

journals.aps.org/rmp

As the world's premier physics review journal, RMP publishes in-depth reviews that provide outstanding coverage of a topic from the leading experts in that area, and give context and background for current research trends.

Lead Editor: Randall D. Kamien, *University of Pennsylvania, USA*

PHYSICAL REVIEW A (PRA)

Covering atomic, molecular, and optical physics and quantum information

journals.aps.org/pra

PRA publishes important developments in the rapidly evolving areas of atomic, molecular, and optical (AMO) physics, quantum information, and related fundamental concepts.

Lead Editor: Jan Michael Rost, *Max-Planck-Institute for the Physics of Complex Systems*

PHYSICAL REVIEW B (PRB)

Covering condensed matter and materials physics

journals.aps.org/prb

The world's largest physics journal, PRB provides outstanding depth and breadth of coverage of condensed matter physics, combined with context and background for ongoing research.

Lead Editor: Stephen Nagler, *Oak Ridge National Laboratory, USA*

PHYSICAL REVIEW C (PRC)

Covering nuclear physics

journals.aps.org/prc

PRC publishes more than two-thirds of the world's research in theoretical and experimental nuclear physics.

Lead Editor: Joseph I. Kapusta, *University of Minnesota, USA*

PHYSICAL REVIEW D (PRD)

Covering particles, fields, gravitation, and cosmology

journals.aps.org/prd

PRD is a leading journal in elementary particle physics, field theory, gravitation, and cosmology and is one of the top-cited journals in high-energy physics.

Lead Editor: Mirjam Cvetič, *University of Pennsylvania, USA*

PHYSICAL REVIEW E (PRE)

Covering statistical, nonlinear, biological, and soft matter physics

journals.aps.org/pre

PRE is a broad and interdisciplinary journal focusing on collective phenomena of many-body systems in the interrelated areas of statistical, nonlinear, biological, and soft matter physics.

Lead Editor: Uwe C. Täuber, *Virginia Tech, USA*

PHYSICAL REVIEW RESEARCH (PRRESEARCH)

journals.aps.org/prresearch

PRResearch is a fully open access, peer-reviewed journal welcoming the full spectrum of research topics of interest to the physics community

Lead Editors: Nicola Spaldin, *ETH Zürich, Switzerland*
Raissa D'Souza, *University of California, Davis, USA*

PHYSICAL REVIEW ACCELERATORS AND BEAMS (PRAB)

journals.aps.org/prab

PRAB covers the full spectrum of accelerator science, technology, and applications, including subsystems, component technologies, beam dynamics, and the design, operation, and improvement of scientific and industrial accelerators of all types.

Lead Editor: Frank Zimmermann, *CERN, Switzerland*

PHYSICAL REVIEW APPLIED (PRAPPLIED)

journals.aps.org/prapplied

PRApplied publishes papers that bridge the gap between engineering and physics, and between current and future technologies. PRApplied welcomes applied research from across the physical sciences and technology communities in academia and industry.

PHYSICAL REVIEW FLUIDS (PRFLUIDS)

journals.aps.org/prfluids

PRFluids is dedicated to publishing innovative research that significantly advances the fundamental understanding of fluid dynamics. PRFluids embraces both traditional fluid dynamics topics and newer areas.

Lead Editors: Eric Lauga, *University of Cambridge, United Kingdom*
Beverly J. McKeon, *California Institute of Technology, USA*

PHYSICAL REVIEW MATERIALS (PRMATERIALS)

journals.aps.org/prmaterials

PRMaterials serves the multidisciplinary materials community working on the prediction, synthesis, processing, structure, properties, and modeling of a wide range of materials.

Lead Editor: Chris Leighton, *University of Minnesota, USA*

PHYSICAL REVIEW PHYSICS EDUCATION RESEARCH (PRPER)

journals.aps.org/prper

PRPER covers the full array of experimental and theoretical research relating to the teaching and learning of physics and astronomy.

Lead Editor: Charles Henderson, *Western Michigan University, USA*

The *Physical Review* journals offer significant value, trusted quality through rigorous peer review, and broad topical coverage, as well as a variety of open access options for authors.

		2022			
TITLE	PUBLISHING MODEL	ARTICLES PUBLISHED	CITATIONS*	DOWNLOADS†	IMPACT FACTOR*
PRL	Hybrid	2,136	492,874	>7,357,000	8.6
PRX	Open Access	224	27,491	>1,164,000	12.5
PRX Energy	Open Access	Began publishing in April 2022			
PRX Life	Open Access	Began publishing July 2023			
PRX Quantum	Open Access	220	3,195	>340,000	9.7
RMP	Subscription	38	59,731	>760,000	44.1
PRA	Hybrid	2,408	133,172	>2,120,000	2.9
PRB	Hybrid	4,904	399,832	>6,340,000	3.7
PRC	Hybrid	1,017	51,261	>545,000	3.1
PRD	Hybrid	4,080	222,151	>1,657,000	5.0
PRE	Hybrid	1,789	104,504	>1,372,000	2.4
PRResearch	Open Access	1,187	16,713	>1,133,000	4.2
PRAB	Open Access	181	2,231	>341,000	1.7
PRApplied	Hybrid	929	21,276	>580,000	4.6
PRFluids	Hybrid	555	8,641	>243,000	2.7
PRMaterials	Hybrid	699	12,762	>401,000	3.4
PRPER	Open Access	104	2,227	>344,000	3.1
TOTALS		20,471	1,558,061	>16,192,000

Why Publish in the Physical Review Journals?

Open Access Options for All Authors

The fully open access *Physical Review* journals make all articles immediately free to read online under a CC-BY license upon payment of an article publication charge (APC). This maximizes readership and citations, and thus visibility and impact, for researchers and their work.

The hybrid journals in the *Physical Review* family include some of the most-cited journals in the world. These offer authors a gold open access option, which makes the article version of record immediately free to read online under a CC-BY license upon the payment of an APC.

For authors without funding for APCs, the hybrid journals also allow self-archiving of the accepted manuscript in non-commercial repositories, which meets the requirements of most funders' and institutions' green open access policies. Several of these journals are participants in SCOAP³ and publish high-energy physics research open access under a CC-BY license at no cost to authors.

By Scientists, for Scientists

All *Physical Review* journals are shaped by scientists to serve the research community. This commitment ensures that the journals' mission and standards prioritize the needs of researchers and authors.

High Visibility and Impact

Authors achieve high visibility and broad dissemination of their work by publishing in the *Physical Review* journals. Editors bring attention to outstanding research and convey its importance through a number of features.
