## TERMS AND CONDITIONS

Subject to Licensee's payment of the annual subscription fee, Publisher agrees to grant to Licensee the non-exclusive, non-transferable and non-sublicensable right to give Authorized Users access to the subscribed Licensed Materials via a secure network for the purposes of research, teaching and private study and not for commercial use, subject to the terms and conditions of this License, during the term of this License. Licensee agrees to pay the annual subscription fee listed in the latest quote from Publisher in accordance with the payment terms set forth in Publisher's invoice. All payments under this License are non-refundable.

1. **Authorized Site.** An "Authorized Site" is a localized site (in one geographical location) that is under a single administration and may be academic or nonacademic. For organizations located in more than one city, each city is considered to be a different Authorized Site. For organizations that have multiple locations in the same city and are administered independently, each location is considered to be a different Authorized Site. No access from remote campuses or remote sites or other forms of subscription sharing is allowed under this License; provided, however, that access by Authorized Users at a temporary, study-away, or satellite location that is administered under, and whose access is managed from, Licensee's primary Authorized Site shall not, by reason of its location alone, be treated as access from a remote campus or remote site or as a separate Authorized Site.
2. **Authorized User.** An "Authorized User" is any individual who is an employee, faculty, staff, or student officially affiliated with Licensee and any person with legal access to Licensee's collections and facilities on-site, including contractors working solely for Licensee's benefit. Authorized Users may be persons remote from Licensee's physical location whose access is administered from Licensee's Authorized Site. This License extends only to Licensee and such Authorized Users and may not be transferred or extended to any other third parties.
3. **Access and Authentication Methods.** Publisher shall provide Licensee and its Authorized Users with access to the Licensed Materials via Publisher's platform. Access shall be granted using the following authentication methods:
  - A. **IP Addresses Authentication:** Licensee shall be identified and authenticated by its Internet Protocol addresses or ranges ("IPs") approved by Publisher. Licensee is responsible for providing IPs to Publisher and/or the contractor designated by Publisher, and for managing expired or inaccurate IPs associated with Licensee's account. Licensee shall promptly notify Publisher and the contractor designated by Publisher of any changes to its IPs. Publisher will only accept IPs owned by Licensee or for the sole use of Licensee and its Authorized Users. All IPs are subject to review and approval by Publisher and/or the contractor designated by Publisher. Publisher reserves the right to reject any IPs failing to fulfill the criteria set forth in this License. Licensee shall use reasonable efforts to prevent access by unauthorized individuals to its IPs and shall terminate any unauthorized access of which it has actual notice or knowledge. Publisher does not allow IP sharing across multiple institutions or accounts. Licensee shall not share IPs with unauthorized users for access to the Licensed Materials.
  - B. **Federated Authentication (SSO):** Authorized Users may use Federated Access Management (SAML-based, e.g., Shibboleth) for seamless single sign-on using Licensee's user credentials.
  - C. **Individual User Account:** Authorized Users may choose to create an individual account (username/password) with Publisher or use their Google account to access personalized features (e.g., Google Scholar CASA, APS "Go Mobile" feature) of Publisher's website, provided that such accounts are linked to Licensee's institutional subscription. Authorized Users may be required to agree to Publisher's standard online terms and conditions before creating an individual account with Publisher or using their Google account. In the event of any conflict between such terms and this License, the terms of this License shall prevail.

Licensee shall at all times use reasonable efforts to use the Licensed Materials in a secure environment and provide adequate protection for and have in place appropriate security policies, procedures, access control methodologies and network protection techniques to safeguard access to the Licensed Materials.
4. **Usage Statistics.** COUNTER-compliant usage reports are available via Publisher's website. Licensee can register and download reports at <http://librarians.aps.org/> or contact [help@aps.org](mailto:help@aps.org) for assistance.
5. **Permitted Use.**
  - A. The Authorized Users are permitted access (via a secure network provided by Licensee) to the subscribed Licensed Materials and may download, save, or print text, search results, or other information from the subscribed Licensed

## TERMS AND CONDITIONS

Materials solely for their private use or research purposes and may only use this online access or the Licensed Materials in a way that conforms with all applicable laws and regulations.

- B. Licensee may include articles from the subscribed Licensed Materials in educational coursepacks in print or digital form for distribution to Authorized Users for their use in connection with classroom instruction or in reserves (print or digital), which are to be deleted by Licensee within 30 days after the end of the semester in which the related course concludes.
- C. Licensee may include articles from the subscribed Licensed Materials in online courses offered by Licensee for as long as such online courses remain active, subject in all cases to the terms and conditions of this License. Notwithstanding Section 13 or any other provision of this License, the foregoing rights shall survive any termination or expiration of this License with respect to any online course that was active as of the effective date of such termination or expiration, but only for so long as such online course remains active; provided, however, that in the event this License is terminated as a result of Licensee's breach, Licensee shall immediately delete the Licensed Materials included in any online course. Except as provided in the preceding sentence, the Licensed Materials included in any online course must be deleted by Licensee within 30 days after the conclusion of such online course.
- D. Publisher grants Licensee and Authorized Users permission (i) to use brief quotations from the subscribed Licensed Materials, with proper copyright notice to the source, and (ii) to copy and transmit content from individual articles, in each case (i) and (ii) solely in "person-to-person" and non-systematic scholarly exchanges of information between Authorized Users and specific individuals.
- E. Licensee agrees that use of the subscribed Licensed Materials by Authorized Users other than as indicated above is a violation of the terms of this License. Any other use of the Licensed Materials requires the prior written permission of Publisher and/or the relevant copyright holder.
- F. Individual articles contained in the subscribed Licensed Materials may be supplied to another library in printed format or as an electronic file (transmitted to such other library via Ariel<sup>TM</sup>, Prospero<sup>TM</sup> or other equivalent tools) solely for the purpose of research, teaching or private study and not for commercial use. In no event shall the supplied Licensed Materials be posted publicly or otherwise made available to the public, including by deposit in or availability through a repository.
- G. Licensee may transcribe any portion of Licensed Materials into Braille script, enlarged type or other appropriate versions in order to allow Authorized Users with disabilities to access Licensed Materials.

### 6. Prohibitions on Certain Use.

- A. Licensee shall not knowingly permit anyone other than Authorized Users to use the Licensed Materials. Altering, recompiling, systematic or programmatic copying, reselling, redistributing, publishing or republishing (beyond the uses permitted under Section 5) of any journal text, output, search result, or other information from the Licensed Materials, or any portion thereof, in any form or medium is prohibited. In addition, Licensee and Authorized Users may not obscure or modify any valid copyright, proprietary, trademark, and/or other legal notices contained in the Licensed Materials, except to the extent reasonably necessary to conduct text and data mining or computational research.
- B. Systematic or programmatic downloading of the Licensed Materials (for example, downloading entire journal issues), for service bureau redistribution services, printing for fee-for-service purposes and/or the systematic making of print or electronic copies is prohibited. Downloading portions of the Licensed Materials for the purpose of creating systematic and persistent local copies (not including transient, dynamic caches of individually requested material) is prohibited.
- C. Limited Text and Data Mining; Artificial Intelligence.
  - i. Text and Data Mining. Licensee may request permission to conduct text and data mining of the Licensed Materials by submitting a written request to [customercare@aps.org](mailto:customercare@aps.org) or via <https://journals.aps.org/datasets/inquiry>. For purposes of this provision, text and data mining shall mean to download, extract, analyze, or index the Licensed Materials, or information derived from the Licensed Materials, using computational tools, algorithms, automated techniques or AI Technologies, for the purposes of

## TERMS AND CONDITIONS

research, teaching and private study only and not for commercial use. Publisher shall not unreasonably withhold permission to conduct text and data mining of the Licensed Materials.

**ii.** Permitted Use of AI Technologies. Publisher grants Authorized Users permission to use the Licensed Materials in connection with AI Technologies, provided that: (1) such use is solely for the Authorized User's own personal, non-commercial research, teaching, or private study purposes; (2) Licensee and Authorized Users shall not permit any third party to use the Licensed Materials in connection with AI Technologies; (3) the AI Technology is used locally in a self-hosted environment or closed hosted environment that is controlled by, or accessible only to, Licensee or Authorized Users, and (4) neither Licensee, any Authorized User, nor any third party may use the Licensed Materials to train, retrain, fine-tune, modify or improve any AI Technologies without Publisher's prior written consent. Any other use of the Licensed Materials in connection with AI Technologies is prohibited. "AI Technologies" means any current or future artificial intelligence, machine learning, large language model, generative artificial intelligence, neural network, or other similar or successor technology, and any product, service, software, algorithm, system, model, tool, or application that uses, incorporates, relies on, or is developed with any such technology. In no cases may Licensee or its Authorized Users use the Licensed Materials to: create a competing or commercial product or service; disrupt the functionality of the Licensed Materials or Publisher's online platform; or reproduce or redistribute the Licensed Materials or any part thereof to a third party.

**iii.** For the avoidance of doubt, nothing in this License shall limit Licensee or any Authorized User from using AI Technologies or automated technologies to facilitate access to the Licensed Materials by users who have disabilities.

**D.** All rights not expressly granted herein are reserved to Publisher. The Licensee shall use reasonable efforts to ensure that Authorized Users do not circumvent Publisher's access control systems or use Publisher's systems or services to make an attempt to gain unauthorized access to any other system or network.

**E.** Nothing in this License, including but not limited to Authorized Uses, shall be interpreted to diminish the statutory rights and privileges of the Licensee or Authorized Users with respect to any of the Licensed Materials under applicable law, including exceptions or limitations to the exclusive rights of copyright owners, such as Fair Use under Section 107 of the U.S. Copyright Act or the Canadian Copyright Act. For the avoidance of doubt, (a) this provision preserves only those rights and privileges that would exist independently under applicable law absent this License, and (b) any determination of fair use or fair dealing remains subject to the applicable statutory factors and does not excuse compliance with the restrictions on systematic, programmatic, or commercial use set forth in this Section 6.

**F.** In the event that abusive usage of the online access threatens the integrity and effectiveness of Publisher's online platform or distribution system, Publisher has the right to discontinue access immediately and will inform Licensee of the abuse within one business day. Online access will be restored as soon as practical after the abuse is corrected.

**7. Accessibility Compliance.** Publisher shall endeavor to conform to the Web Content Accessibility Guidelines ("WCAG") version 2.2, Level AA, as published by the World Wide Web Consortium (W3C), or any successor standard agreed to in writing by the parties. Publisher agrees to use commercially reasonable efforts to promptly respond to and resolve any complaint regarding accessibility of the Licensed Materials provided to Licensee under this License, to the extent feasible. For the avoidance of doubt, nothing in this License shall limit Licensee or any Authorized User from making lawful, non-infringing uses of the Licensed Materials to facilitate access by Authorized Users with disabilities, and Publisher hereby authorizes such uses.

### **8. Publisher Warrants.**

**A.** Publisher warrants that it shall:

- i.** use reasonable efforts to ensure that the server has adequate capacity and bandwidth to support the reasonable usage by Licensee at a level that meets the standards of availability for information services of similar scope operating via the World Wide Web, as such standards evolve from time to time over the term of this License.
- ii.** use reasonable efforts to make the subscribed Licensed Materials available to Licensee and to Authorized Users at all times and on a twenty-four-hour basis, save for routine maintenance (which shall be notified to Licensee in advance wherever possible), and to restore access to the subscribed Licensed Materials as soon as possible in the event of an interruption or suspension of the service.

## TERMS AND CONDITIONS

- B. Publisher shall not, and shall not seek to, collect personal data in relation to any Authorized User other than as is reasonably and properly required for the administration of this License, and shall fully comply with its obligations under the applicable data protection laws in relation to the collection, use, retention and appropriate security of any such personal data processing.
- C. Publisher warrants that it has the right to license the rights granted under this License to use Licensed Materials, and that it has obtained any and all necessary permissions from third parties to license the Licensed Materials.
- D. EXCEPT AS EXPRESSLY PROVIDED IN THIS LICENSE, PUBLISHER MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF DESIGN, ACCURACY OF THE INFORMATION CONTAINED IN THE LICENSED MATERIALS, MERCHANTABILITY OR FITNESS OF USE FOR A PARTICULAR PURPOSE. THE LICENSED MATERIALS ARE SUPPLIED 'AS IS'.
- E. EXCEPT AS PROVIDED IN THIS LICENSE, UNDER NO CIRCUMSTANCES SHALL PUBLISHER BE LIABLE TO LICENSEE OR ANY OTHER PERSON, INCLUDING BUT NOT LIMITED TO AUTHORIZED USERS, FOR ANY INDIRECT, SPECIAL, EXEMPLARY, INCIDENTAL, PUNITIVE, ENHANCED OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER ARISING OUT OF THE INABILITY TO USE, OR THE USE OF, THE LICENSED MATERIALS. IRRESPECTIVE OF THE CAUSE OR FORM OF ACTION, PUBLISHER'S AGGREGATE LIABILITY FOR ANY CLAIMS, LOSSES, OR DAMAGES ARISING OUT OF THIS LICENSE SHALL IN NO CIRCUMSTANCES EXCEED THE SUBSCRIPTION FEE PAID BY LICENSEE TO PUBLISHER UNDER THIS LICENSE IN RESPECT OF THE SUBSCRIPTION PERIOD DURING WHICH SUCH CLAIM, LOSS OR DAMAGE OCCURRED. THE FOREGOING LIMITATION OF LIABILITY AND EXCLUSION OF CERTAIN DAMAGES SHALL APPLY REGARDLESS OF THE SUCCESS OR EFFECTIVENESS OF OTHER REMEDIES.

### 9. Licensee Warrants.

#### A. Licensee warrants that it shall:

- i. use reasonable efforts to ensure that all Authorized Users are aware of the importance of respecting the intellectual property and other proprietary rights in the Licensed Materials and of the terms and conditions of this License, and use reasonable efforts to notify Authorized Users of the terms and conditions of this License and take steps to protect the Licensed Materials from unauthorized use or other breach of this License.
- ii. use reasonable efforts to monitor compliance and immediately upon becoming aware of any unauthorized use or other breach, inform Publisher and take all reasonable and appropriate steps, both to ensure that such activity ceases and to prevent any recurrence.

- 10. **Responsibility by Both Parties.** To the extent permitted by applicable law and regulation, each party shall use its best efforts to safeguard the intellectual property and other proprietary rights and the confidential or non-public information of the other party.
- 11. **Copyright.** The Licensed Materials (including, for clarity, the abstracts), except where explicitly noted, are copyrighted by Publisher and are subject to all applicable copyright, database protection, and other rights of Publisher as copyright owner under laws of the United States and other countries.
- 12. **Official Version of Record.** Publisher will use commercially reasonable efforts to ensure that the online version of the Licensed Materials corresponds in content with the print version. In the event of any discrepancy between the print and online versions, the online version will be the official version of record.
- 13. **Term.** This License shall commence on the date signed and will remain in effect so long as Licensee maintains a current online subscription to the Licensed Materials. Licensee is responsible for all applicable taxes and fees arising from or related to the use of the Licensed Materials as required by any national, state, provincial, or local jurisdiction to which Licensee is subject including, without limitation, services taxes. This License will terminate:
  - A. if and when the subscription lapses;
  - B. upon a determination by Publisher that Licensee has breached any term or condition of this License and upon notice to Licensee of such violation, this License will terminate unless within thirty (30) business days after receiving

## TERMS AND CONDITIONS

written or e-mail notice of the breach, Licensee cures the breach and implements procedures, reasonably satisfactory to Publisher, to prevent future breaches; or

- C. upon three months' written notice by either party.

Licensee shall, and use reasonable efforts to instruct all Authorized Users to, cease all use of the Licensed Materials and delete or destroy all Licensed Materials in their possession. All provisions that by their nature should survive the termination or expiration of this License will survive any such termination or expiration of this License.

- 14. Archival Preservation.** Publisher will use reasonable efforts to maintain an archive of its entire electronic journal content. In particular, Publisher maintains three complete and continuously updated mirror sites for all of its content from the present back to 1893, distributed widely across the United States, and also deposits the full Publisher content with Portico. Licensee shall be informed of any material changes to such archive.

- 15. Addenda to this License.** Licensee may elect to execute additional addenda through Publisher's online platform. The execution of an addendum shall be deemed effective upon completion of the electronic acceptance process by Licensee. Each executed addendum will automatically be incorporated into and form part of this License upon execution. Certain addenda may be subject to additional fees, which will be specified on Publisher's online platform and/or at the time of execution. Licensee agrees to pay the fees set forth in any executed addendum in accordance with the payment terms set forth in Publisher's applicable invoice(s).

### 16. General

- A. This License constitutes the entire agreement of the parties with respect to the subject matter hereof and supersedes all prior communications, understandings and agreements relating to the subject matter of this License, whether oral or written. This License may be amended or modified only by a written agreement signed by the parties.
- B. This License may not be assigned by either party to any other person or organization, nor may either party subcontract any of its obligations, without the prior written consent of the other party, which consent shall not unreasonably be withheld, except that Publisher may subcontract the management and operation of the Licensed Materials without Licensee's prior written consent. Any assignment or subcontracting in violation of this Section 16.B will be void.
- C. Any notices to be served on either of the parties by the other shall be sent by prepaid recorded delivery, registered mail or email to the address of the addressee as set out in this License or to such other address as notified by either party to the other as its address for service of notices. Notices sent by email to Publisher shall be directed to [subs@aps.org](mailto:subs@aps.org). A notice sent by prepaid recorded delivery or registered mail shall be deemed to have been received by the addressee within seventy-two (72) hours of posting. A notice sent by email shall be deemed to have been received on the date of transmission, provided that no delivery failure notification has been received by the sender.
- D. A party's delay or failure to perform any provision of this License, as a result of circumstances beyond its control (including, without limitation, war, strikes, floods, governmental restrictions, power, telecommunications or Internet failures, or damage to or destruction of any network facilities) shall not be deemed to be, or to give rise to, a breach of this License.
- E. The headings in this License are for reference only and do not affect the interpretation of this License. The word "or" is not exclusive. Use of the words "includes" or "including", "for example", or "e.g. (and their derivatives)" means includes or including, without limitation. The parties intend this License to be construed without regard to any presumption or rule requiring construction or interpretation against the party drafting an instrument.
- F. This License may be executed by electronic signature. The invalidity or unenforceability of any provision of this License shall not affect the continuation or enforceability of the remainder of this License.
- G. Either party's waiver, or failure, to require performance by the other, of any provision of this License will not affect its full right to require such performance at any subsequent time, or be taken or held to be a waiver of the provision itself.
