## ISSNs, CODENs, and URLs

| JOURNAL TITLE                              | ISSN      | CODEN  | URL                                                                                             | Journal Type        |
|--------------------------------------------|-----------|--------|-------------------------------------------------------------------------------------------------|---------------------|
| Physical Review Letters                    | 1079-7114 | PRLTAO | <a href="https://journals.aps.org/prl">journals.aps.org/prl</a>                                 | hybrid              |
| Physical Review A                          | 2469-9934 | PLRAAN | <a href="https://journals.aps.org/pra">journals.aps.org/pra</a>                                 | hybrid              |
| Physical Review B                          | 2469-9969 | PRBMDO | <a href="https://journals.aps.org/prb">journals.aps.org/prb</a>                                 | hybrid              |
| Physical Review C                          | 2469-9993 | PRVCAN | <a href="https://journals.aps.org/prc">journals.aps.org/prc</a>                                 | hybrid              |
| Physical Review D                          | 2470-0029 | PRVDAQ | <a href="https://journals.aps.org/prd">journals.aps.org/prd</a>                                 | hybrid              |
| Physical Review E                          | 2470-0053 | PLEEE8 | <a href="https://journals.aps.org/pre">journals.aps.org/pre</a>                                 | hybrid              |
| Physical Review Applied                    | 2331-7019 | PRAHB2 | <a href="https://journals.aps.org/prapplied">journals.aps.org/prapplied</a>                     | hybrid              |
| Physical Review Fluids                     | 2469-990X | PRFHBR | <a href="https://journals.aps.org/prfluids">journals.aps.org/prfluids</a>                       | hybrid              |
| Physical Review Materials                  | 2475-9953 | PRMHAR | <a href="https://journals.aps.org/prmaterials">journals.aps.org/prmaterials</a>                 | hybrid              |
| Reviews of Modern Physics                  | 1539-0756 | RMPHAT | <a href="https://journals.aps.org/rmp">journals.aps.org/rmp</a>                                 | subscription        |
| Physical Review X                          | 2160-3308 | PRXHAE | <a href="https://journals.aps.org/prx">journals.aps.org/prx</a>                                 | gold open access    |
| PRX Energy                                 | 2768-5608 | PERNFI | <a href="https://journals.aps.org/prxenergy">journals.aps.org/prxenergy</a>                     | gold open access    |
| PRX Intelligence                           | 3070-0329 | PIABBN | <a href="https://journals.aps.org/prxintelligence">https://journals.aps.org/prxintelligence</a> | gold open access    |
| PRX Life                                   | 2835-8279 | PLRICF | <a href="https://journals.aps.org/prxlife">journals.aps.org/prxlife</a>                         | gold open access    |
| PRX Quantum                                | 2691-3399 | PQRUAG | <a href="https://journals.aps.org/prxquantum">journals.aps.org/prxquantum</a>                   | gold open access    |
| APS Open Science                           | 3070-2240 | AOSACM | <a href="https://journals.aps.org/apsos">journals.aps.org/apsos</a>                             | gold open access    |
| Physical Review Research                   | 2643-1564 | PRRHAI | <a href="https://journals.aps.org/prresearch">journals.aps.org/prresearch</a>                   | gold open access    |
| Physical Review Physics Education Research | 2469-9896 | PRPECZ | <a href="https://journals.aps.org/prper">journals.aps.org/prper</a>                             | gold open access    |
| Physical Review Accelerators and Beams     | 2469-9888 | PRABCJ | <a href="https://journals.aps.org/prab">journals.aps.org/prab</a>                               | diamond open access |
| Physics                                    | 1943-2879 | PHYSGM | <a href="https://physics.aps.org">physics.aps.org</a>                                           | N/A                 |
